

# QUALITY TECHNICIAN SKILLS FOR SUCCESS

## ***Increase your earning potential.***

**Today's job market is more competitive than ever. Give yourself a leg up by becoming a certified Quality Technician.**

Our Quality Technician Skills for Success program was developed to address the growing need for skilled workers in manufacturing. This ten-day workshop, led by our instructors with years of industry experience, will give you the knowledge and skills you need to be successful. Through these workshops, participants will learn essential quality concepts, tools, and tasks.

### **TOPICS COVERED (10 DAYS):** Must attend all 10 sessions to earn certificate.

- Nov. 2: Quality Tools & Techniques for Quality Technicians
- Nov. 16: Workplace Skills for Quality Technicians
- Nov. 30: Print Reading for Manufacturing
- Dec. 14: Measurement for Manufacturing
- Jan. 11: Problem Solving Using PDCA, A3, and Root Cause Analysis
- Jan. 25: Basic Excel Skills
- Feb. 8: Basic Statistical Process Control (SPC) and OSHA 10-Hour General Industry Day 1
- Feb. 22: OSHA 10-Hour General Industry Day 2
- Mar. 7: Advanced Product Quality Planning (APQP) and Production Part Approval Process (PPAP)
- Mar. 21: Failure Mode Effects Analysis (FMEA) Overview and Control Plans

### **WORKFORCE READY GRANT FUNDING (WRG):**

This training is a [qualified training program](#) for [Indiana Workforce Ready Grant](#) funding. If you are interested in applying for the grant to cover your registration fee, please [review the requirements](#). If hyperlinks in the text don't work, log on to: <https://nextleveljobs.org/workforce-ready-grant/>

**Interested in using the WRG funding?** Please email Michele Beck at [beck93@purdue.edu](mailto:beck93@purdue.edu) to learn about the application process. Those interested in using WRG funding need to register and be approved by October 18th.

*Note: This series and the certificate are not related to ASQ's Quality Technician Certification (CQT).*
